

Last week at Lisbon's famous [Escola Secundária Eça de Queirós](#), Charles Goodger, the founder of FunSongs Education, held an action song workshop for APPI, the leading Portuguese English Teachers association.

He showed how the combination of music and mime, rhythm and rhyme can be fun and accelerate language learning. Participants also enjoyed learning "[The Monster March](#)", the FunSongs action song that teaches 14 parts of the body and "[On Halloween](#)", particularly relevant at this time of the year.
